Electrical Systems - Marconi (11:15 - 13:00)

time	[id] title	presenter
11:15	[140] A case for innovation in environmental protection, electric systems and energy design efficiency for yachts	Mr BARBINI, Giorgio
11:30	[152] Innovative Energy Systems: Motivations, Challenges and Possible Solutions in the Cruise Ship Arena	Dr BOVERI, ALESSANDRO
11:45	[154] Distributed Energy Resources On-Board Cruise Ships: Integration into the Ship Design Process	Mr FLORE, GIORDANO
12:00	[137] Integrated Ship Design and CSI Modeling: a New Methodology for Comparing Onboard Electrical Distributions in the Early Stage Design	Dr BOSICH, Daniele
12:15	[24] Shore-to-ship power supply integrating conventional and distributed generators along with storage	Mr TORRI, Giordano
12:30	[124] A mixed AC/DC low voltage electrical distribution architecture for increasing the payload on ships	Dr LA TONA, Giuseppe
