The CNM conference, organized by "Associazione Italiana di Tecnica Navale" (ATENA), is one of the major Italian scientific events on maritime and nautical culture.
The conference will take place in two days, November 14th and 15th 2019, covering all the conceptual and theoretical aspects connected to the research in engineering, history, architecture, economic, and social sciences fields. After the great success of the previous two editions, about 100 contributions are expected which will be organized in parallel sessions by topic.

The CNM 2019 conference will be held in Naples, with the aim of promoting the dialogue between scholars, professionals, and those who are involved, with their particular skills, in research, development, and enhancement of sea culture.
