### Planing Hull Hydrodynamics 1 (14:00 - 15:30)

| time  | [id] title  | presenter       |
|-------|---|-----------------|
| 14:00 | [14] Simulating hydroelastic slamming by coupled Lagrangian-FDM and FEM   | Dr BASIC, Josip |
| 14:30 | [13] Warp effects studied by a time-domain strip model and compared to model experiments                                  | Dr GARME, Karl  |
| 15:00 | [5] Experimental and Predictions of Pressure Distributions on the Bottom of a Prismatic Planing Hull During Wave Slamming | JUDGE, Carolyn  |
